7. Upgrade to G Suite Enterprise

   a. **Details:** Board discussed the use of Team Drives for better organization of files. Current G Suite account type ($25/month total for 5 accounts) doesn’t support this, an upgrade would 5x our costs ($25/per user - thus $125/month).

   b. **Action items:** Build shared Board folder structure with sub folders for contracts, financials (state/fed), firmware (licenses), etc. which using existing G Suite account level. Perform audit to confirm all board members have access, Bron to perform clean-up at next hackathon.

8. Deploy Arista switches

   a. **Details:** Board discussed timeframe on deploying 3 newly purchased 100Gbps high-buffer switches w/ VXLAN support. Matt noted that as quickly as possible, as participants are most been impacted by packet loss - not availability that VXLAN could provide.

   b. **Action items:** Build initial configs for L2 / spanning tree deployment (addressing the immediate buffer concerns), deploy in Fremont (FMT01) and San Francisco 200 Paul (SFO02) - as these are the problem locations. 3rd unit remains as cold spare.
